

Opportunity for Graduate Mechatronics Engineer

Exciting Opportunity for “Graduate Mechatronics Engineer”

CPR is quickly becoming one of Australia's most innovative, affordable & service driven Painting companies carrying out repaints on large apartment buildings in and around Sydney, Wollongong and Newcastle. In three short years we have:

- Become the MPA winners for high rise buildings, quality workmanship and customer Service.
- Repainted many of Sydney's premier apartment buildings over 100 to date
- Developed a powerful Brand and Marketing presence.

We are a team of highly energetic and passionate people from 15 different nationalities from all over the globe. We come from different cultures and ethnicity but our goals are common and we work with strong company values of respect, care, pride and dignity.

ABOUT THE ROLE:

With the advancement of automation within the business, an opportunity exists for an innovative and hands-on Mechatronics Engineer to develop, implement and support automation and robotic solutions for Painting & Logistic Management and assemblies for CPR Group Australia Pty Ltd.

This role will offer you the opportunity to learn and be involved in developing complex system designs, including detailed design layouts and cost estimates. You would be working mainly in conjunction with the Operations and R&D Team, whilst also liaising with other business units within the company, such as Project Management, Engineering, Estimation and Administration.

You will have the opportunity to further develop your AutoCAD and MS Excel skills, with on the job training in a supportive team environment. Good organisational skills and an ability to work to deadlines in a fast paced team environment are key attributes for the position.

We are looking for candidates who have the following job specific skills and experiences:

- Strong knowledge of automated and robotic systems
- Demonstrated project management skills with a proven track record of delivery
- Demonstrated experience working as part of a cross functional team within a global business
- Excellent communication skills with an emphasis on defining the technical performance requirements of automated and robotic systems
- An ability to engage with a diverse range of internal and external stakeholders while maintaining a pragmatic approach
- Self-motivating with the ability to motivate others to achieve results.
- Energy, enthusiasm and passion to be part of a team driving cultural change.
- Ability to priorities and work effectively to manage several projects at once.
- Exceptional communication and customer service skills
- Pleasant Attitude, positive outlook, easy going and energetic nature.
- Team player and Achiever.

If interested, please apply NOW as it's an urgent position please email your resume to our HR Department at Sarita@cprpainting.com.au
